

M92X

Next-Gen Wood Flooring Adhesive

Product Specifications

M92X is a next generation moisture-cured adhesive formulated for use in the installation of all engineered, solid, cork and parquet flooring recommended for glue-down installation. M92X effectively reduces moisture vapor transmission from concrete subfloors, protecting wood flooring from damage for most common installations.

Features and Benefits

- Easy-to-install adhesive for wood flooring
- Reduces moisture vapor transmission
- Sound mitigation and crack isolation
- Moisture mitigation up to 90% RH
- Zero flash time install immediately
- Easy troweling
- Easy surface cleanup
- No slippage – no need to tape
- Health and environmentally conscious formula design
- ZERO calculated VOC
